Summary

3rd-year IT student skilled in web development with expertise in HTML, CSS, JavaScript, MySQL, and PHP. Experienced in Angular, Node.js, and Express. Active in open-source contributions and proficient with Git. Passionate about creating optimized, user-friendly web solutions.

Experience

Web Developer Intern - Krystal Movies Pvt. Ltd.

November 2022 - June 2023, Delhi NCR

Skills: HTML • CSS • Bootstrap • TypeScript • Angular • Git

- Engineered a responsive e-commerce website using Angular, facilitating product listings, user registrations, and online payments.
- Designed the layout and added animations to enhance the user experience.
- Spearheaded the creation of a healthcare portal for patient registrations and medical record management.
- Managed version control using Git for collaborative development.

Open-Source Contribution - Social Summer of code

June 2023 - July 2023, Remote

Skills: HTML • CSS • TypeScript • Angular • Git

- Contributed to a web development repository, creating Angular components and resolving multiple bug fixes.
- Engaged with the open-source community, improving project functionality and user experience.

Projects

Blog Management - March 2024

Skills: HTML • CSS • JS • PHP • MySQL • Git

- Implemented secure user login and registration using PHP sessions.
- Created functionalities for users to manage blog posts efficiently.
- Enabled users to comment on blog posts, storing comments in MySQL for persistent data management.
- Ensured a mobile-friendly interface using HTML and CSS for an optimal user experience.
- Implemented both client-side and server-side validation for enhanced security and data integrity.
- Use Xampp for development and testing of the website

E commerce Platform - April 2024

Skills: Next.js • TypeScript • Shadcn • Tailwind CSS • PostgreSQL • Prisma • Git

- Implemented dynamic product listings and user authentication using Next.js.
- Utilized TypeScript for robust type-checking and improved code quality.
- Styled the application with Tailwind CSS, ensuring a responsive and modern UI.
- Leveraged Shadcn components to enhance user interaction and accessibility.
- Managed product data and user information using PostgreSQL for efficient and reliable database operations.
